

FIITED AG

Ankle Protection

Mitigate Fear. Prevent Injury.

D3O's dilatant materials are designed to absorb and dissipate energy in response to blunt force impact.

The D3O® Fitted Ankle Guard offers increased protection and comfort through a more ergonomic shape and tapered profile. This allows for subtler integration into the boot without compromising on performance.

The D3O® Fitted Ankle Guard meets CE standard EN 13634:2017 under 5kn transmitted force outside of boot.

Product Features

- D3O® patented technology
- Low profile
- Tapered
- Meets EN 13634:2017 standard
- Ergonomic curvature
- Coverage exceeds minimum CE area (suitable for all boot sizes)
- Low impact on aesthetics and functionality of boot
- Increased comfort
- Added protection to ankle area
