

FIITED AG LP

Ankle Protection

Mitigate Fear. Prevent Injury.

D3O’s materials are designed to absorb and dissipate energy in response to blunt force impact.

The D3O® Fitted Ankle Guard LP delivers enhanced boot comfort for riders through a highly low-profile design without significantly compromising performance.

Fitted Ankle Guard LP passes the EN 13634:2017 motorcycle standard for ankle protection due to its superior shock absorption properties, while being 41% thinner and 38% more lightweight than the D3O® Fitted Ankle Guard.

Product Features

- Low-profile design for improved comfort
- Passes EN 13634:2017 protective motorcycle footwear standard
- when integrated correctly into boots
- Unchanged perimeter shape allows simple integration into existing boots without modifying constructions
- Reduced bulk visually enhances end-products
- Tapered, ergonomic design offers flexibility
